In view of the amendment to the claims and remarks filed on March 31, 2005, the art rejection has been withdrawn. The pending claims, however continue to have some 112 issues:

***Claim Rejections - 35 USC § 112***

1. Claims 17 and dependents are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 17, the phrase "a thin film form in multilayer" is vague and indefinite, as it is unclear whether or not applicant is referring to a plurality of thin film and that all the thin films having the same composition, reflectivity and optical density? If the thin films are not the same, then where (in position) is the claimed thin film with respect to the rest of the thin films?

Furthermore, it is not clear whether the claimed "thin film" contains no chromium or the multilayer thin film contains no chromium?

The phrase "minimum reflectivity which is 0.5 % or lower" is indefinite.

In claims 19-20, it is unclear whether the "thin film" is further containing at least one of Cu, Ti, Zr and Sn.

***Conclusion***

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1775

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
